DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 and 5-10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention. Applicants have claimed, in independent claims 1 and 7-10, a process for producing an aromatic compound isomer.... However, applicants have not disclosed any process steps, which describe how to make the said aromatic compound isomer. Instead, applicants' additional claim language describe adsorptive separation methods. Thus, it is unclear what applicants actually intend to claim. Appropriate correction is required.

Response to Arguments

Applicants' arguments, filed 3/10/03, have been considered but are moot in view of the new ground(s) of rejection.
